

Wire Frame to Concept

- **Design Deliverable:** The design concepts for this phase will be based on one or possibly two home page layouts. The client will review and provide design feedback to the designer for changes. Revize asks that clients have no more than three iterations of changes up to the point that the final concept is approved.
- **Final Home Page Sign Off:** When all changes have been made, Revize will present your final home page design and layout for approval. Customer approval is required to proceed to the next phase, the inner pages of the website, and the process repeats itself before the actual HTML & CSS is written.
- **Final Inner Page Sign Off:** When all changes have been made, Revize will present your final inner page designs and layouts for approval. Customer approval is required to proceed to the next phase, when the actual HTML & CSS is written.

Phase 3: Template Development, CMS Integration

First, the Revize development team will transform the approved designs from mere pictures into fully-functioning HTML/CSS and Revize Smart Tag enabled web page templates using the Revize Dreamweaver Extension. The Revize Smart Tags are fully customizable and allow customers to expand functionality as needed. To maximize this extensibility, the full Revize Java API is provided to clients with our Advanced Training Program.

Phase 4: CMS Modules Setup

In this phase, all of the features and modules the client has requested will be set up, e.g. calendar, document center, picture galleries, alert center, e-Notify, etc. are all brought to life and made functional while also being tested in the Revize CMS. Revize enhances current modules and adds new modules continuously, and you will receive all future updates to modules at no additional cost.

Phase 5: Custom Functionality Development

In this phase and according to your specifications, custom functionality of existing CMS modules, database scripting and programming, as well as any custom application development will be executed. The Revize development team will be interfacing directly with your technical staff to obtain information and test information exchange and application functionality. This phase may overlap phases 2 – 4.

Phase 6: Quality Assurance Testing

In our testing phase, we ensure that your website meets functionality, performance and security standards. Our QA team uses mock data to test navigation and interfaces of the templates, along with any custom developed applications or modules. Additionally, through a series of tests, we perform input validation to ensure that security mechanisms cannot be bypassed if anybody tampers with data he or she sends to the application, including HTTP requests, headers, query strings, cookies, and form fields. We also ensure that when errors do occur, they are processed in a secure manner to reduce or eliminate exposure of sensitive implementation information.

Phase 7: Content Development / Content Migration

Revize will develop all of the pages for your site to make the initial content available upon site deployment. Our content development and migration experts use the latest standard formatting practices to develop the navigation and create the most effective content possible for your website. This includes spelling and style corrections into the new website.

There are no limits to the number of pages you can create after you have gone through training.

Revize will implement an effective website architecture with the latest technology and usability trends so your website visitors can find information in an instant. We will also assess your current website content and incorporate what you currently have with additional content to maximize interest and excitement for your readers. Our content experts are educated in proper writing and terminology, and will use correct grammar, spelling and punctuation.

Our web designers use creative typography which makes the website more visually appealing and also plays a role in defining the hierarchy of content to be placed on the web page. Variations in size and color are used, as well as strategic placement on the page to highlight certain site areas so the visitors can easily navigate the site. Effective typography also ensures that your website will look good on desktop, laptop, mobile and tablet devices.

Phase 8: Training Your Staff (in-person or web based training)

Once your website is ready for you to begin editing, you will be able to easily revise your content as often as needed. Revize will train you on how to operate the Administrative and Content Editor functions so you can manage your website. We typically provide this training on-site; however, we can also provide on-line training for your staff if you prefer. For your convenience, training materials can be downloaded from the Revize website. After training, our friendly and responsive support staff is always here to answer questions and provide training refreshers as needed.

Standard Training Agendas

Basic Administrator Training (How to)

- Sign-in
- Create users
- Assign roles
- Set page level permissions
- Set section level permissions
- Configure and set up workflow approval process

Content Editor Training (How to)

- Sign-in
- Edit page content
- Copy/paste content or add new
- Create a file link
- Create a link to another web page or external web site
- Create a new page and link to it
- Insert/update a picture
- Insert/update a table
- Spell check
- Save and Save as Draft
- History of the page content (content archive)
- Create a survey form or any other type of online web form
- Create navigation pages (top/left menus)
- Create new calendar and create/edit calendar events
- Edit metadata

Advanced Administrator Training (How to)

- Run back-end reports
- Run Google Analytics reports

Training on use of specific Modules included, such as

- Emergency Notification Center
- Public Service Request App
- Web Calendar
- E-Notify
- Quick Links
- Document Center

- Form Center
- News Center
- Frequently Asked Questions
- Request Center
- Bid Posting Center
- Job Posting Application
- RSS
- And more....

Rev|ze Maintenance Covers

- 4 CMS upgrades per year
- Software and modules upgrades (Automatic Install)
- Server Hardware & OS upgrades
- Immediate bug fixes/patches
- Round the clock server monitoring
- Data Center network upgrades
- Security and antivirus software upgrades
- Firewall and router upgrades
- Bandwidth and network infrastructure upgrades
- Remote backup of all website assets
- Tape backup of all website assets
- Quarterly newsletters on major feature updates
- Regular Webinars on CMS features and usage

Rev|ze has launched hundreds of municipal and county websites large and small!

Hosting Service

Revize has partnered with Amazon Web Services (AWS) and Google Cloud Service Platform (GCP) for it's LIVE WEB server hosting infrastructure needs. Both AWS and GCP are industry leaders in high availability cloud server architecture, both server farm infrastructure is highly secured, scalable and redundant for 24/7/365 availability. Snapshot/Mirror Image backups of all of our cloud servers guarantees 100% data protection and recovery in case of any disaster. Also, Revize has dedicated CMS servers in two state-of-the-art physical data centers located in Chicago and Detroit. Onsite/Offsite data backups of all of our dedicated servers are scheduled nightly with R1Soft backup service. Additionally, Revize utilizes multiple Tier 1 bandwidth providers such as Level3, WilTel, and Cogent for redundancy and continuous connectivity. These procedures provide our clients with up to 500Mbps of fast fiber optic up-stream connectivity.

Revize hosts your web sites and web applications on redundant (3 TB Hard Drive, 3.2 GHz CPU and 32 GB RAM) servers in order to provide enhanced performance and reliability. The Revize technology architecture physically separates the CMS from the website in order to provide another layer of redundancy/security. With this model, we keep an up-to-the-minute exact duplicate of your website in the event your site must be restored. Revize support staff will simply republish your site within a guaranteed two hours (as opposed to several hours or days time frame our competitors offer).

“Revize can provide clients with unlimited data storage server space for each website.”

Revize will host both your Extranet and Intranet; your Intranet is secure and only accessible by authorized users through a login system.

There are no special software requirements to run a Revize hosted website and CMS solution. We make it all very simple. All you need is an internet connection and a browser. We also provide complete maintenance of your website, which includes but is not limited to: OS patches, intrusion prevention, antivirus, and software upgrades.

Final Phase: You Go Live!

At last, your website content is complete and your staff is sufficiently trained! The final phase in the process is to redirect your website domain name from your old site to your beautiful new one. Once this is completed, Revize will closely monitor the transfer for the first 24 hours to ensure that everything is working properly. Any issues that arise will be immediately resolved.

Marketing & Ongoing Consultation

Revize seizes on every effort to make our clients' sites highly visible. We draft press releases for posting on our website and for distribution locally and will continuously monitor your site after it goes live so that you can take advantage of all marketing opportunities. We also look to submit your site for different awards and recognition competitions to further maximize your site's exposure.

Search Engine Registration and Marketing

Revize will input all the targeted keywords to make your web pages search engine friendly, thus enabling users to find targeted information when they do a Google, Yahoo or any other search on your site.

Security

Revize takes website security very seriously and we provide our clients with the very best website protection protocols. Our data centers are located on secure premises equipped with card-reader access, security cameras and guards on duty 24/7 to ensure the physical protection from unauthorized entry.

Our web and network administrators monitor network activity 24-hours-a-day to ensure system integrity and protection against threats such as Denial of Service (DoS) attacks that could corrupt your website or block user access. Maintaining the secure configuration of our web servers is managed through application of appropriate patches and upgrades, security testing, vulnerability scans, monitoring of logs, and backups of data and OS.

Security Controls, SSL, and Active Directory (LDAP)

- Anti-malware software such as antivirus software, anti-spyware software, and rootkit detectors
- Shield Plus Security Bundle to prevent DDoS attacks
- Intrusion detection and prevention software (such as file integrity checking software)
- Host-based firewalls to protect CMS servers from unauthorized access
- Patch management software
- Security and Authentication Gateways
- Content filters, which can monitor traffic to and from the web server for potentially sensitive or inappropriate data and take action as necessary
- HTTPS (Hypertext Transfer Protocol over SSL), which provides encryption and decryption for user page requests that require more secure online transactions
- SSL (Secure Socket Layer) provides an encrypted end-to-end data path between a client and a server regardless of platform or OS
- If you have an existing SSL Certificate we can transfer it to the new website. Otherwise, if included, we will install a new SSL Certificate upon go live.
- Active Directory (LDAP) is compatible with the Revize CMS. It can be set up in a variety of configurations. As part of the process we will work with you to determine which configuration will best meet your needs.

Application Security Authentication

- Role-Based Security: Role-based authentication to add individual user accounts and assign them system roles like Editor, Developer, Administrator, Workflow Approvers, etc., or department roles and empower the department to assign specific roles to users.
- Permission-Based Security: Ability to set up Content Owners/Editors and restrict which site pages they are authorized to update
 - Global & Department Workflow Management: Create workflow management and approval processes where authorized department personnel become approvers

Did you know?

Revize will host your website and CMS in at least two completely separate geographic locations!

Maximum Response Times

- 1 hour for crisis issues
- 4-6 hours for critical issues
- 24 hours for normal issues

Revize Support

- 8 a.m. – 8 p.m. EST Phone Support (Monday thru Friday)
- 24X7X365 Portal & Email Support
- Dedicated support staff to provide assistance and answer all questions
- New and existing user training
- Training refreshers
- Video tutorials and online training manual
- Automatic integration of enhancements
- E-Newsletter module support
- Automatic upgrades of CMS Modules such as Calendar, Document Center, etc...

Software Maintenance

Revize rolls out two new versions of the Revize CMS, and six to eight product updates every year. The Revize CMS is continuously enhanced to keep pace with cutting edge technologies and industry trends. When a software update or new version is rolled out, Revize will automatically update all servers used by our subscription service clients.

“As a Revize client, you will receive full access to all enhancements to the core components and modules in the Revize CMS at no additional charge.”

Revize Technology Architecture

The Revize Government CMS is a standards-based, open architecture software product without any proprietary restrictions. Revize uses leading technologies to avoid integration problems with existing systems and comes complete with its own Integrated Publishing Engine, Embedded Relational DB, JSP/Servlet Engine, and Application Server.

Revize Intelligent Publishing WCM

Redundancy”

Revize Project Team

Revize understands the importance of having a talented and experienced staff. We are proud of our well-respected team of top notch experts in the field of government website design, development, analysis, content management, training and support. From the first creative concepts through to the design phases, and from site launch to training of personnel and continued support of your website project, we have the right group of seasoned professionals to work with you through the website process and beyond. We are pleased to introduce them:

Thomas Jean

Project Manager

As a project manager, Thomas has brought to Revize a very special skill set. Not only does he manage some of our highest priority projects, he is also a subject matter specialist when it comes to the inner workings of government. As an elected Township Trustee in a Michigan Township, he knows the advantages that come with modernizing the way government does business. Additionally, he serves as President of a registered 501c3 non-profit organization, Genesee Forward, that promotes community development. With his unique background and education from one of the nation's top universities, Thomas is uniquely experienced to give an honest and accurate assessment of your community's website needs.

- Philosophy: Learn as much as possible about our clients and use that knowledge to help build an amazing website.
- Education: BA degree in Political Science from University of Michigan;
- Expertise: Government procedure, special projects, public affairs, community development.
- Role on your website project: Project Manager

Joseph J Nagrant

Business Development Director

Joseph is an accomplished professional internet and website design consultant with more than 20 years of successful business development and account management leadership experience. He has worked with well over 500 townships, cities, counties, educational institutions, companies, and non-profit organizations. He's a foremost expert in translating technical solutions into compelling living websites and other online community building opportunities. Additionally, he is a board member for Mott Community College (Flint, MI) MTEC Center, IT Advisory Council, Education Advisory Group. He also participates in many government discussions regarding the Internet for government use, including being a frequent guest on WDET (NPR) public radio and in The Detroit News. He has an excellent reputation for building and sustaining effective, long lasting client relationships.

- Philosophy: "Put yourself in the client's shoes and do what is best for them."
- Education: BS in Electrical Engineering, Lawrence Tech University, MS in Business, Central Michigan University.
- Expertise: 29+ years of project, sales and marketing experience with government, education, corporate, and non-profit organizations.
- Role on your website project: Supervisor of account management between client and project team.

Ray Akshaya

Technical Director

Ray has 20+ years of extensive technical experience with internet and website solutions. He has worked on hundreds of government, non-profit and educational websites and has a keen eye for web visitor requirements, information architecture, and usability. He is also a long-time veteran of Revize Software Systems and our clients enjoy working with him. In his career, he has deployed and/or assisted with technical solutions for more than 500 websites. When working on a project, Ray always visualizes himself in the client's chair at the closing stages of the project and makes sure that all decisions made on a project are in alignment with the client's vision and best practices for developing the system.

- Philosophy: "Work Hard, Help People and Live Honest."
- Education: MS in Engineering Science, Louisiana State University, Baton Rouge
- Expertise: Client Management, Project Management, Technology Development for CMS & Web Apps

- Role on your website project: Technical Director

Samir Alley

Creative Director

Samir has more than a decade of experience in managing web site design projects. He has deployed 360+ municipal websites and has a solid background in web design and the latest web technologies. Formerly with Google, Samir is a leader equipped to handle any kind of sophisticated web project. He is an exceptional communicator with an innate listening skill that gives him the ability to understand and deploy a client's unspoken needs. Samir's blend of creativity, proficiency, and technical knowledge is unsurpassed in the industry.

- Philosophy: "Empathy, Focus, and... Impute"
- Expertise: Web Project Management - Adobe Design Premium CS5.5: Photoshop, Illustrator, InDesign, Flash, DreamWeaver, Fireworks, HTML, CSS, CSS3, SEO, PHP, JavaScript, MySQL, JQuery and HTML5.
- Role on your website project: Graphic design of website and backup support.

Alec Armstrong

Website Developer / Graphic Designer, Illustrator

Alec is a senior front-end developer and designer with Revize with more than 10 years of experience in website development. He is highly skilled in his ability to leverage the latest technologies to create fast and innovative web solutions. He commands an intense, yet light-hearted creative presence at Revize, producing excellent website development work.

- Philosophy: Design and development are constantly evolving, and learning new methods and practices gives me a "geeky" excitement. What I truly enjoy most is that I can create what is considered to be art, but at the same time serves a very functional purpose through website programming.

Expertise: Skilled in Adobe Design Premium CS5.5: Photoshop, Illustrator, InDesign, Flash, DreamWeaver, Fireworks, HTML, CSS, CSS3, SEO, PHP, JavaScript, MySQL, JQuery and HTML5.

- Role on your website project: Web development of website templates and backup support.

Denise Brazier

Project Manager/Trainer

Denise is an educator by nature. Her 20 years of experience in the public school system has made her a master of engaging participants during training. She effortlessly builds effective relationships with all clients. Denise has served as Advisory Counselor, Coordinator, Publicity Director, and Project Manager for several organizations in the education, non-profit and public sectors. She has been appointed to the state's quality committee evaluating organizational policies and procedures for recognition.

- Philosophy: "Always explain things in the terms of your audience to ensure their understanding"
- Education & Training: MS in the Art of Education from Marygrove College. Certification in Secondary Education
- Expertise: Training, education, teaching, public affairs and project management.
- Role on your website project: Trainer for the Content Management toolset and project manager

Second year and onward investment	\$1,800/year

Flexible Payment Options Available

Revize provides a free website design refresh after year four of service if client signs a 5 year locked-in rate agreement.

Website Features Included:

The Following Applications & Features will be Integrated into Your Website:

In addition to the Government Content Management System that enables non-technical staff to easily and quickly create/update content in the new web site, Revize provides a suite of applications and features specifically designed for government. All of those apps and features are fully described in the following section. The applications and features are grouped into five categories:

- Citizen's Communication Center Apps
- Citizen's Engagement Center Apps
- Staff Productivity Apps
- Site Administration and Security Features
- Mobile Device and Accessibility Features

Citizen's Communication Center Apps

- Home Page Alert
- Document Center with keyword search
- FAQs with keyword search
- News Center with Facebook/Twitter Integration
- "Share This" Social Media App
- Online Web Forms
- Photo Galleries
- Quick Link Buttons
- Revize Web Calendars
- Sliding Feature Bar
- Language Translator

Citizen's Engagement Center Apps

- Citizen Request Center with Captcha
- Online Bill Pay
- RSS Feed

Staff Productivity Apps

- Image Manager
- iCal Integration
- Link Checker
- Menu Manager
- Bid Posting Management System via Vendor Registry
- Online Web Form Builder
- Website Content Archiving
- Website Content Scheduling

Site Administration and Security Features

- Audit Trail
- Drag and Drop Menu Management
- Drag and Drop Picture Management
- Drag and Drop Document Management
- History Log
- URL Redirect Setup
- Roles and Permission-based Security Mode
- Secure Site Gateway
- Unique Login/Password for each Content Editor
- Web Statistics and Analytics

Mobile Device and Accessibility Features

- ADA Compliant WCAG 2.1
- ADA Accessibility Widget
- Responsive Website Design (RWD) for great mobile phone viewing

Revize Support Includes

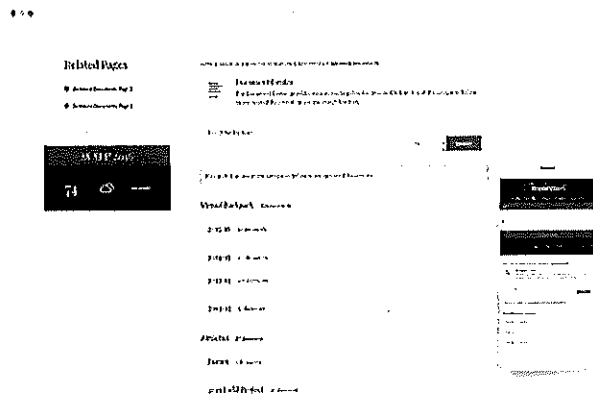

- 8AM – 8PM EST Phone Support (Monday thru Friday)
- 24X7X365 Portal and Email Support
- Staff provides assistance and answers all questions
- Dedicated support staff
- New/existing user training
- Free Training Refreshers
- Video tutorials and online training manual
- Automatic integration of enhancements
- Automatic upgrade of CMS modules, such as Calendar, Document Center, etc.
- Four major CMS upgrades per year
- Software and modules upgrades (automatic install)
- Server hardware and OS upgrades
- Immediate bug fixes/patches
- Round the clock server monitoring
- Data Center Network upgrades
- Security and antivirus software upgrades
- Firewall and router upgrades
- Bandwidth and network infrastructure upgrades
- Remote backup of all website assets
- Tape backup of all website assets
- Quarterly Newsletters on major feature updates
- Regular webinars on CMS features and web site trends

Citizen's Communication Center Apps

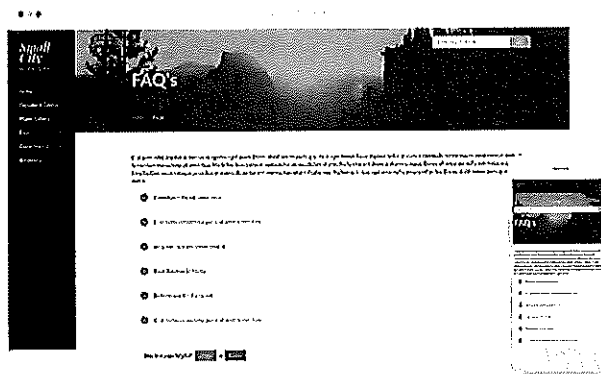

DOCUMENT CENTER APP

Revize helps clients save thousands of dollars each year in employee time and resources with our Document Management Center. Using this module you can create and archive the documents your site visitors need: applications, brochures, manuals, policy and data sheets, research papers, meeting minutes, and more. By providing all of your documents online, your site visitors can access them 24/7 – usually within two clicks -- and you won't incur any printing or postage costs.

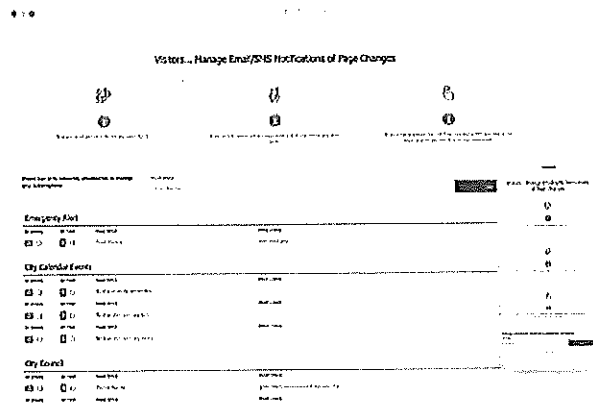

FAQ

FAQ's make it easy for site visitors to find answers to common questions and will greatly decrease the number of calls coming into your switchboard each day. In fact, within six weeks of a Revize website launch, our clients typically experience a significant decrease in the number of daily phone calls... some by as much as 23%!

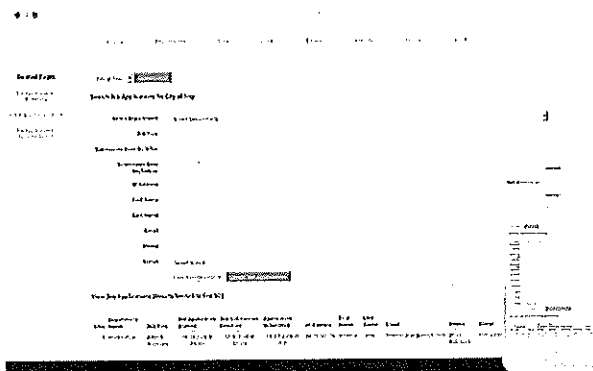

E-NOTIFY CENTER

Many of our municipal clients include an email/text notification option on their Meeting Minutes and Meeting Agendas pages so that interested citizens can sign up for automatic updates anytime there is a new posting.

JOB POSTING

Revize's job postings app allows your site visitors to view and apply for open positions online. Postings are removed automatically based on the job expiration date input by your HR personnel. You can provide as much detail as you like and link to or upload any number of files that fully describe the job position. Best of all, with the form fill interface, new openings can be posted in minutes by non-technical staff.

HOME PAGE ALERT

You can't fool or control Mother Nature. But you can protect members of your community from her wrath. Posting emergency notifications on your home page, any other page, or throughout your site, this module allows your content editor to accurately explain the situation and instruct members of your community on the next steps to take.

BID POSTING

The Bid Postings App provides a simple and easy-to-use method for organizing and presenting bids, RFPs and RFQs online for vendors or local contractors interested in providing products and services to your community.

BUSINESS DIRECTORY

Ideal for municipalities, chambers of commerce or any membership organization, this module allows you to easily create and maintain a searchable directory for either members or businesses within the website. Listings can be added, removed and categorized by non-technical staff in a simple table interface.

NEWS CENTER WITH FACEBOOK INTEGRATION

Many of our municipal clients include an email/text notification option on their Meeting Minutes and Meeting Agendas pages so that interested citizens can sign up for automatic updates anytime there is a new posting.

ONLINE WEB FORMS

Using this module, you can create -- from scratch -- an unlimited number of online forms on any page of your site using various field options such as long answers, radio buttons, drop-down lists, multiple choice, etc. Having online web forms provides a quick and easy alternative for users to communicate with you and provide important feedback, opinions or complete tasks online. These forms can be used to have web visitors contact you with questions, comments and requests, give feedback, volunteer, or to sign-up for various events, activities or programs.

QUICK LINKS

The Quick Links module allows site visitors to navigate to their areas of interest, much like FAQs. Examples for users: Where do I... Get Registered for Summer Camp Where do I... Get a Marriage License.

SHARING APP

Provides a one click drop down to multi-social media and utility buttons. A common widget used on the web, it is intuitive and easy to use.

SLIDING FEATURE BAR

This feature is a mainly for visual appeal. It helps to break up pages with an interesting slide bar that can be populated with any subjects or areas that you want to draw attention to. For example, you may want to feature Parks & Rec, Landmarks and Tourist Attractions.

TRANSLATOR

Revize integrates the Google Translator into your website templates and translates from English to over 40 other international languages. Provides users a large visual display at the top of the web page to choose any language to convert the text into.

This app allows residents to submit requests based on a map view. Each time an issue is submitted, a staff member will receive an email notification. From there they are able to respond directly to the requests. Photo submission, automatic escalation, mobile app integration, and archived reporting make this one of our most powerful features!

This app allows customers, residents, participants, students, or any website visitor to post requests online. By the use of a drop-down menu, individuals can forward the request, idea, or comment to the party of interest. That item is then forwarded via email to the proper recipient. You can add or delete department names as well as individuals in the drop-down menu at any time. Captcha is integrated to ensure each request is genuine and not a spam.

This app allows public to order copies of the public records maintained by a municipality. The request is routed to the record custodian within a department and automated response is generated with a unique tracking number. The system allows the full tracking, correspondence and online handling of all types of public record request. The record request form is very flexible and customizable for every municipality.

This app helps open up the lines of communication between administrators and their constituents, increasing transparency and constituent interaction. It is a blog that features the option to allow constituent comments for feedback (comments can be moderated before being published to the website).

This app allows the display of parks shelters and their amenities and to manage their availability to the public. A website visitor can search for facilities by type available, review the amenities for each facility and easily reserve the facility including the option to pay for its use.

ONLINE BILL PAY

Allows clients to set-up secure on-line payment processing for credit card transactions. Can be used for utility and tax payments; Purchasing items on-line; or making donations to non-profit organizations.

RSS FEED

Site visitors will be eating out of the palm of your hand with our RSS feeds module. Revize's CMS allows customers to generate RSS (Real Simple Syndication) feeds for any genre of news or events. RSS feeds are a trusted way to communicate important information to site visitors while ensuring that they remain engaged with your organization and regularly return to your site.

Using this app, you can upload agendas, meeting packets, meeting minutes, proposals for review, and more, all into one area on your website for easy access and review before, during, or after each meeting. Old meeting agendas and information are archived per meeting for quick access at any time.

This app allows you to post a job and receive resume submissions online. Candidates can fill in all the fields and submit the job application online. Once the job application is submitted, a link to the filled in application form will be emailed to the responsible HR person which they can view, print and file for their records.

Allows approved staff to upload images from their computer or network folders. This very simple interface allows you to upload new pictures and stores uploaded pictures for reuse. Each department can create their own image folders and organize image libraries by department. Also, obsolete images can be deleted from the image library.

Provides a Dynamic CMS-enabled area with secure login to build out an entire Intranet for employee specific information only. It benefits your employees to have an internal organization landing page that can be updated with news, events, alerts and many of the same modules used on the extranet.

When a new link is created, the Revize system checks if the URL (link) is valid or not. If not, an error message will be displayed. This benefits the Content Editor by double checking bad links before they are saved on your website.
