**Subject:** RE: Fortinet Renewal - \$465.88

Morning Jerry,

Barracuda ESS is a service that provides email security and spam filtering for your organization and this type of solution is a business standard in terms of network security; which is why it was suggested. As far as why it wasn't apart of the original agreement, I can't say because I wasn't apart of the original signing and the Sales Executive apart of that agreement has left the organization. I believe, originally, there was confusion around where the email/spam filtering was coming from and come to find out it was ProofPoint which was being provided by the previous MSP who gave a timeline to cut the services off, which would have resulted in your organization's email services to stop. So, we quickly got Barracuda ESS signed for and applied to avoid that.

The Fortinet renewal is a subscription/license that is applied to your Fortinet firewall and is something that is required by Fortinet themselves. This license allows your organization to utilize security services on the firewall that your organization purchased the firewall for, like malware protection and content filtering. Obviously these aren't required because your firewall is operating right now, but it's recommended to purchase licensing to keep the firewall as operational and secure as what was purchased for.

The Managed Services Contract is an agreement to provide services, described below page 2, on the line items listed on page 2. Services like, support and management of the line items listed. Anything beyond what is described would be considered a 'billable service'. In these two instances, the Barracuda ESS was added as a line item to the agreement and the license for Fortinet is something that comes from Fortinet that wouldn't be apart of an agreement between City of Prairie and Xerox. We just provide the sale of the license for the equipment and apply the license. To be totally transparent, it isn't *completely* expected for there to be additional costs arise, but it's likely. For instance, the warranty on devices may come up for expiration and would need to be renewed with the equipment manufacturer so that if something were to go wrong with the device, the manufacturer would assist and/or replace the equipment. Things like that.

I hope that I explained things well and Tom please add any additional information or correct me if I'm wrong on something.

**Thank You,**

**Allen Mitchell**

Subject: Fortinet Renewal - \$465.88

**CAUTION:** This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Allen,

I'm reaching out to obtain a better understanding of the added costs that have occurred to the City's Managed IT Services annual agreement for \$18,156 signed 7/26/22. Last month the City Council approved the \$696 for spam filtering (Barracuda Essentials Advanced Email and ATP). A council member questioned staff about this additional program/feature and why it wasn't included and/or mentioned in the service agreement.

Currently, we have another expenditure request to add Fortinet UTM Bundle (FortiCare plus NGFW, AV, Web Filtering, Botnet IP/Domain and Antispam Services) for \$465.88. I am certain that this request will generate questions from the City Council. Our service agreement includes Managed Infrastructure assistance at \$4236 that includes firewall/router protection through Fortinet.

Are both the Barracuda Essentials Advanced Email and ATP and Fortinet UTM Bundle needed and/or essential to protect our computer server system? Are there other future expenses related to this computer service agreement that staff and the City Council should know? Should any future service agreement explain these types of additional expenses?

Thank you,  
Jerry Moore

**11. CONFIDENTIALITY.** Quote and order documents from Company are considered private correspondence and should be kept confidential, except where prohibited by public entities. This is proprietary information and only valid for the recipient of the proposal.

**12. COMPLIANCE WITH LAWS.** You agree to comply with all applicable laws and regulations of the various states and of the United States and/or any other country or competent jurisdiction regarding the export or re-export of any commodity, technology, technical data and/or software. You shall not export, directly or indirectly, any technical data acquired hereunder or any Products utilizing such data to any country for which the U.S. Government or any agency thereof at the time of export requires an export license or other governmental approval without first obtaining such license or approval.

**13. MISCELLANEOUS.** Unless you have a separate written agreement with Company that expressly supersedes this Agreement, this Agreement constitutes the entire agreement as to its subject matter and supersedes all prior and contemporaneous oral and written agreements. Company expressly rejects any contrary or supplemental terms in any purchase order, acknowledgment or other documentation provided by you, and in the event of any conflict between the terms of this Agreement and any such documentation, the terms in this Agreement shall prevail unless specifically so stated otherwise in writing by Company. This Agreement is governed by the substantive laws of the State of New York, including the Uniform Commercial Code as adopted thereunder, without regard to their conflict-of-law principles. Company may assign or subcontract any of its rights or obligations with respect to the sale, lease or rental of Products or the right to receive payments. You may not assign or otherwise transfer your rights or obligations under this Agreement without the prior written consent of Company. No attempt to assign or transfer in violation of this provision will be binding upon Company. If a court finds any term of this Agreement to be unenforceable, illegal, or otherwise invalid, that provision and the remaining provisions will be enforced to the greatest extent possible. The failure of either party to enforce any provision of these terms and conditions or any other provision of this Agreement will not be construed as a waiver of such provision or the right thereafter to enforce such provision. All changes to this Agreement must be made in a writing signed by both parties. The amendment, cancellation, or termination of this Agreement will not affect the outstanding obligations of either party.

**Re:** January Police Report

---

The department logged 123 calls for service for the month of January. This number includes all calls other than business security checks that are done regularly by patrol officers.

Officers issued a total of 13 traffic citations and 9 warnings for January which was impacted by the January weather that makes it more difficult to turn around in the medians.

The speed camera on Hwy 163 recorded 1715 validations. These numbers are down because of road conditions and a lower vehicle volume typically seen after the holidays.

Fire and EMS assist numbers were up slightly and we recorded 60 salvage vehicle inspections during the month.

Office Aldrich started his full time schedule on the 27<sup>th</sup> so now the department is full staffed providing more continuous coverage to the city.
